Re: 2021 IAMG Distinguished Lecturer

Dear Professor Jaime Gómez-Hernández,

I'm delighted to confirm that you have been selected by the IAMG Lectures Committee (Chair, Christien Thiart, Vice President of IAMG) as the 2021 Distinguished Lecturer of the International Association for Mathematical Geosciences. Congratulations for this well-deserved recognition!

The Distinguished Lecturer is an important role within the IAMG. As part of this role, the Distinguished Lecturer prepares a series of lectures preferably on a variety of subjects in the mathematical geosciences to be presented in places where IAMG Annual Meetings are not normally held.

It is our custom that the Distinguished Lecturer is a keynote speaker at the next IAMG conference or International Geological Conference (IGC), at which time the award is presented. I hope that you will be able to attend IAMG2021, which is scheduled to take place in Nancy, France, to continue this tradition (your expenses will be paid by the IAMG as part of your DL funding). I am copying this letter to the Lectures Committee Chair, Christien Thiart, to Secretary-General Eric Grunsky, who will be making arrangements for the presentation ceremony, to Treasurer David Collins, who will take care of your travel expenses, and to Chair of IAMG2021, Guillaume Caumon, who will arrange your plenary presentation at IAMG2021.

With best wishes and heartfelt congratulations

Yours sincerely

Jennifer McKinley
President, International Association for Mathematical Geosciences
